

Child Development (AAS)#

Associate in Applied Science

Minimum of 60 Credits

Objective, dependable people, who get along well with others and have a genuine interest in young children, may find that the Child Development program is what they are seeking. Child development students learn educational and environmental principles used to optimally promote young children's development. Student's work directly with children at the OCCC Child Development Center and Laboratory School in some courses, applying concepts learned in the classroom. Students are encouraged to see a faculty advisor early in the program. Oklahoma City Community College also offers child development degree that prepares students for continuing their education at a four-year college or university and a certificate of mastery.
