

Literature - Humanities/Literature Emphasis

Associate in Arts

Minimum of 61 Credits

By studying literature, students gain a solid background in liberal arts. Literature students learn about English, American, and World literature. The study of literature brings students insight into cultural values and significant experiences that shape the world. Associate degrees in Humanities give students the academic background needed to continue their education at a four-year college or university. Once they graduate, students can pursue career opportunities in teaching, writing, visual arts, the ministry, law, theatre, and film. Emphases in general humanities and philosophy are also available.
