You've probably heard it said, “We must remember, so we will never forget.” That’s what the study of history is all about. For generations, people around the world have preserved the history of their families, tribes, towns, villages, countries and significant events through the preservation of records, documents, artifacts and images. At Oklahoma City Community College, you can gain insight into how these civilizations and cultures evolved and how they affect our own traditions today. The OCCC associate degree in arts in history is a good option if you are well-organized and analytical and have an interest in related fields. This program will prepare you to transfer to a four-year college or university.
