

## Pre-Medicine - Science with Chemistry Concentration Program

### Associate in Science

Minimum of 61-64 credit hours

If you want to be challenged every day, have an abundance of career opportunities and join a profession where you can truly have a chance to make a difference, the field of medicine could be a perfect choice for you. At Oklahoma City Community College, you can earn an associate degree in chemistry with a pre-medicine option. This will allow you to transfer to a four-year college or university so that you can complete any remaining prerequisites before you apply to a college of medicine. With a medical degree, you could eventually become a general practitioner, a specialist physician, a surgeon, a researcher or a teacher – just to name a few. And, beyond the immense satisfaction of making a positive difference in people's lives, the rewards include financial stability, recognition among your peers and the ability to build lasting relationships with your patients.
