How do I log in to Moodle?

To log in to your Moodle account, enter the following URL into your browser’s address bar: online.occc.edu, then enter your OCCC student email address and password in their respective fields.

By default, this is set to:

**Username**: firstname.middleinitial.lastname@my.occc.edu

**Password**: last six digits of your Social Security number (example: 123456). If you are an international student, your default password is set to the last six digits of the 999-XX-XXX number assigned to you.

Use the **Sign In** button to log in.

**How do I find my course?**

After logging in, you will find your courses listed below the image in the center of the page. Selecting a course in this list will take you to that course’s home page.
I found my course, now what do I do?

The above image displays a typical course home page. The course’s name will be displayed at the top of the page, and a list of the content in the course will be displayed in the CONTENTS area on the page. Most courses will have a Welcome topic which contains your course syllabus, course schedule, instructor contact info, and other course content. These topics are usually separated out by weeks, lessons, or units.
To access content within a topic, select the topic’s name in the CONTENTS area.

This will load the contents of that topic on the page.

1. Welcome to your course!

Some resources, such as pages, can be viewed by using the Read more >> button.
This will display the page’s content inline on the course home page. The X icon at the bottom of the page can be used to close it.

**Syllabus**

Introduction to Spaceflight Online

**Required Text:** Necessary reading materials will be provided in the course resources.

**Course Description:**

Students will be introduced to very basic ideas and facts about manned spaceflight. Topics will include: Basic Mission Control functions and resources, general spaceflight procedures and decision making processes, and an exploration of some of the different functions of the crew during a mission.

Other course content, such as files or activities, can be accessed by selecting them from the course home page.

**Activities and Assignments**

- **Unit 1 Discussion Forum**
- **Assignment Unit 1 (dropbox)**
  - Not Submitted

This will load the content or assignment. To navigate back to the course home page after viewing the content, you can use the Back button on your browser or the breadcrumb link near the top of the page.
Another useful section present in each course are the Course tools. These can be accessed from the CONTENTS menu on the course home page by selecting Course tools.

Here you will find links to the Gradebook, the course calendar, the Online Course Support Center, Quickmail, Library resources, and other information.
You can log out of Moodle by accessing the site navigation Menu in the upper right corner of any Moodle page.

The Log out button is at the bottom of this page.

How do I turn in my work?

The above image depicts a typical Lesson topic in a course. Often instructors will add resources such as pages, PDF files, or other content to a topic, as well as activities and assignments such as quizzes, forums, and assignment dropboxes. These resources and activities can be accessed by selecting their link on the course home page.
How do I post in a Discussion Forum?

In a discussion forum, instructors will generally provide a topic for you to post a response and may also require that you respond to other students’ posts on the topic. However, there are other uses for Discussion Forums, so be sure that you carefully read your instructor’s requirements for each forum.

To access a discussion forum, use the forum’s link on the course home page.

This will take you into the discussion forum. Here you will be able to read the forum instructions, add a new post, and read and reply to other’s posts.

To post, first read the instructions and requirements for the discussion forum. When you are ready to add your post to the forum, use the Add a new discussion button to begin the process.
This will load the **Add your discussion** menu. First, add a descriptive title to your new post by typing it in the **Your subject** field. Next, type or paste from Word the content of your new post in the **Type your post** field. If you desire, or if it is required by your instructor, you can add an attachment to your post. Please note that this option may not always be available to you depending on how your instructor has set up the discussion forum. After double-checking your post to ensure you are ready to submit, use the **Submit** button to add your post to the forum.

If you are required to respond to another student’s post, you may do so by returning to the discussion forum. All posts made to the forum will be listed beneath the **Add a new discussion** button. To view other posts in the forum, select the title of the post.

This will display the content of that post. If you wish to reply, you may do so by entering your reply in the **Add your reply** section and using the **Submit** button.
The steps for creating a reply post are the same as for creating a new post.

**How do I turn in my documents in an Assignment (dropbox)?**

When instructors require you to turn in an essay, project, or similar type of coursework in Moodle, they will generally have you use the assignment activity. *(Note: Some instructors may refer to an assignment as a dropbox.)* Each essay or project will have its own assignment. To access the assignment, use the assignment’s link on the course home page.
This will take you to the assignment page. Here you will see your instructor’s directions for the assignment, the **Submission status** table, and the **Add Submission** button.

If your instructor has asked you to submit a file for the assignment, you can do that by using the **Add submission** button. This will bring you to the **File submissions** page. You can drag and drop files into the area below, or you can add them with the file picker by using the Add icon.

To use the file picker, first select **Upload a file**.
Next, use the **Choose File** button to locate the assignment file on your computer or flash drive. Once you have located and selected the file, use the **Upload this file** button to finish the upload process.

Verify that the correct file appears in the **File submissions** field, and select **Save changes**.
If your instructor has enabled draft mode, your assignment **Submission status** will be **Draft (not submitted)** and you will be required to use the **Submit assignment** button to finish the process.

When your assignment has been fully submitted, you will see the **Submission status** indicated as **Submitted for grading**.

Lastly, when submitting an assignment, your instructor may have enabled a feature which allows you to provide a comment with your submission. If enabled, you will see the **Submission comments** section on the **Submission status** page.
Using the **Comments** link will allow you to enter a comment for your instructor.

When finished entering your comment, use the **Save comment** link to add the comment to your submission.

**How do I begin my exams or quizzes?**

**Before beginning an exam or quiz**

- Be sure you’ve studied the course material!

  As most of your exams will be timed, it is imperative you use your time wisely. Being prepared will reduce much of the stress associated with taking exams.

- Be sure you have enough free time to finish the exam!

  Once you press the start button on an exam, the timer will begin and continue to count down until time has expired, whether you are actively taking the exam or not.

  Do not navigate to other pages in Moodle while you have the exam open. This can cause issues with your submission.

- Be sure you have a reliable Internet connection.

  You should only start exams from a reliable Internet connection. If your home Internet connection fails often or has other issues, you may want to take your exams from a more reliable Internet connection, like at the OCCC Library, OCCC Student Computer Lab, or at a public library.
• Be sure you fully submit the exam once you are finished.

If you navigate away from the exam before completing the submission process your exam may not save properly, or other issues could arise.

If issues arise

• Be sure to contact your instructors immediately to make them aware of your issues.

• Contact technical support for assistance at onlinecoursesupport.com/occc.

Starting an exam or quiz

Select the exam from the course home page.

The next page has your instructor’s directions for the exam, information about the number of attempts allowed and time limit, and the Attempt quiz now button.

Be sure you have enough time to finish your exam.

After ensuring you are prepared to begin the exam and going over your instructor’s directions, use the Attempt quiz now button to begin your attempt.
A confirmation box will load, reminding you of the time limit and number of attempts. If you are certain you are ready to begin, use the **Start attempt** button to begin. This will begin the exam and start the timer.

**Taking an exam or quiz**

After starting the attempt, the first page of quiz questions will be displayed along with the quiz timer at the bottom of the page.

**Question 1**

Not yet answered  Marked out of 1.00  Flag question

This is the first question in your exam.

Select one:
- True
- False

**Time left 0:08:17**

To answer multiple choice or true/false questions, simply select the answer you believe is correct. For essay and short answer type questions, you will need to type your responses into the indicated fields. Other question types may require you to select the correct answer from a drop-down menu.
When you have answered all of the questions on a page, use the Next button at the bottom of the page to navigate to the next page, or to begin the submission process if you are on the last page.

This will show you a summary of your attempt, including any unanswered questions and the amount of time remaining. If you have skipped a question, it will be shown here as Not yet answered. A question’s number under the Question heading is a link that can be used to take you directly to a question. The Return to attempt button will take you to the beginning of the exam.

Unit 1 Exam
Summary of attempt

<table>

<tr>
<th>Question</th>
<th>Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Answer saved</td>
</tr>
<tr>
<td>2</td>
<td>Not yet answered</td>
</tr>
</tbody>
</table>

This attempt must be submitted by Wednesday, 2 September 2015, 9:04 AM.

After verifying you have answered every question and you are satisfied with your attempt, use the Submit all and finish button to submit your attempt for scoring.
Depending on your instructor’s settings, this will take you to a review. Here you can see a review of your attempt, which will show you information about each question and your results.

When you are done reviewing your submission, use the **Finish review** link at the bottom of the page to end the review.

This will take you back to the start page of the exam or quiz. This page will give you an overview of your previous attempts and enable you to attempt the exam again if your instructor allows more than one attempt.
How do I find my Grades?

To check your grades, go to the course’s home page. In the CONTENTS menu, select Course tools.

In the Course tools area, select Gradebook.

This loads your User report, which lists your grades for each assignment and your course total.

If you have questions regarding your grades, please contact your instructor.
How do I contact my instructor?

Questions about your course, course material, coursework, or grades should always be directed to your instructor.

Contacting your instructor from Moodle is EASY!

From the course home page, select Course tools in the CONTENTS menu.

Scroll down from course tools area until you locate the Quickmail heading. Select Compose New Email beneath this heading.

Select the name of your instructor in the Potential Recipients list. When the instructor’s name is highlighted, use the Add button.
This will move the instructor’s name into the **Selected Recipients** field.

![Selected Recipients](image)

Scroll down on the page to locate the **Message** composition area.

![Message Composition Area](image)

You can attach any desired files, add a subject, and type a message to your instructor here. If you would like to receive a copy of your email, select **Yes** beneath **Receive a copy**. Use the **Send Email** button when finished to send the email.
Where does my email go? Where do I find my email?

Moodle Quickmail will go to your OCCC email account.

- This will be true for all students and faculty.

- You cannot check this email from Moodle. You can access your OCCC Student email account here: www.occc.edu/email

Tips for contacting instructors

- Read your syllabus or instructor’s contact information page for your instructor’s contact information.
  - Do they have a preferred way of communication?
  - When can you expect a response?

- Remember to be polite.

- Use complete sentences.

- Don’t type in all caps – in online communication, it can be viewed as screaming.

- Don’t use bright or hard to read fonts.

Where can I find help?

Technical Support and Other Resources

- Contact the Online Course Support Center. You can find a link to the Online Course Support Center page on the Moodle Login page.
• This link is also accessible from each course home page by selecting the Course tools link in the CONTENTS area, then scrolling down to locate the Technical Support heading.

OR

• You can contact them at onlinecoursesupport.com/occc

• Search the knowledge base

• Chat

• Open a ticket—they will respond to you via email

• Their phone number is also available on their site if you prefer to call.
Regardless of how you contact them, you will be asked to provide:

- Your name
- Your OCCC email address
- MineOnline username
- Course name and number
- A description of your issue

**Online Tutoring**

- OCCC also offers online tutoring called GradeResults. It is free to all students.
- You can access it from the College home page under the Login tab.

**Need someone to walk you through the process?**

- For assistance with logging into and using Moodle, navigating your courses, setting up your student email, or contacting your instructors, please contact the Center for Learning and Teaching (CLT):
  
  - online@occc.edu
  - 405-682-7574
  - Stop by the CLT between 8:00 a.m.–5:00 p.m., Monday–Friday. We are located in SEM 2G3, across from the Math Lab.
If you are unable to access Moodle, MineOnline, or your OCCC Student Email, please contact MineOnline at 405-682-7777.

**How do I find information?**

OCCC is working hard to help you! You can find information in several places:

- OCCC website, [www.occc.edu](http://www.occc.edu)
- Online Student Resources page, [http://www.occc.edu/onlineressources/index.html](http://www.occc.edu/onlineressources/index.html)
- Moodle Orientation course in Moodle
- OCCC Student Email site, [http://www.occc.edu/email/](http://www.occc.edu/email/)
- Online Course Support Center site, [http://onlinecoursesupport.com/occc](http://onlinecoursesupport.com/occc)
- Office365 Student Advantage, [http://www.occc.edu/advantage/](http://www.occc.edu/advantage/)
