Fall 2016 Course Success Overview

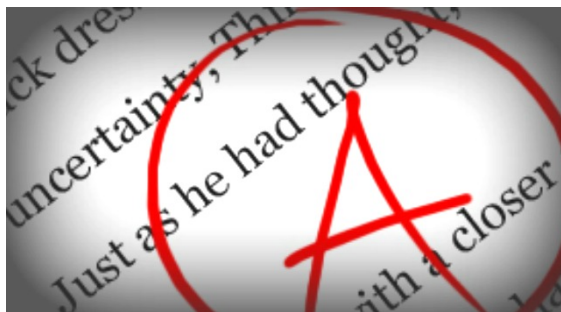

Presentation By:
Matt Eastwood
Office of Institutional Effectiveness

February 15th, 2017

What is success?

- Adopting definitions used by Achieving the Dream, course success is defined as a student earning a(n) A, B, C or S as their final grade in a course.

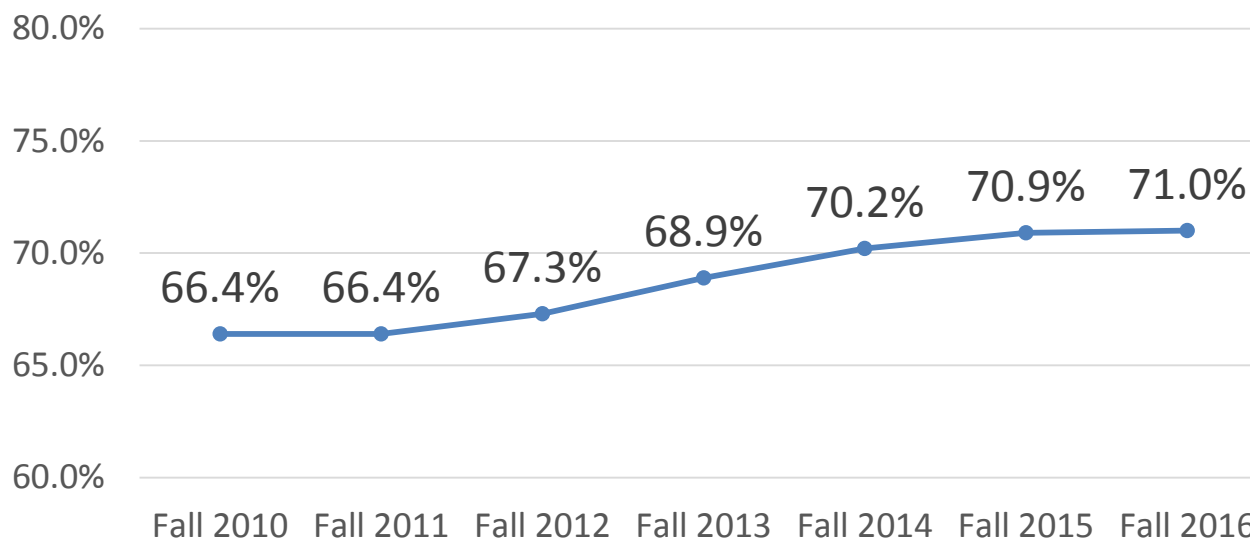

What is a success rate?

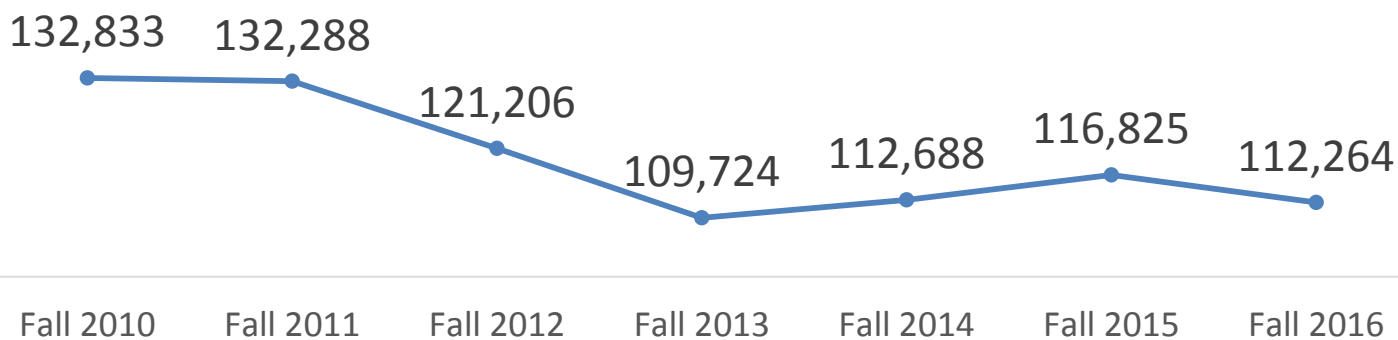

- The number of students in a given population that received an A, B, C or S as percent of the entire population. Students receiving an Incomplete grade or Auditing the course were not included in the aggregate.

Overall Fall Success Rates – By Educational Goal

Summary of Fall Success Report

- Overall campus success rates were essentially flat compared to last year.
- Online credit hours generated now represents more than a quarter of all credit. This has grown 48% since Fall 2010. With online growth, success gaps have narrowed.
- First time in college student success rates have increased 10 percentage points since fall 2010.
- There has been steady declines in both MWF course offerings and evening course offerings in last six fall terms.
- Largest declines in demographic related success rates were seen among Hispanics and students 30 and over.
