Recommendations

Initiative 4: Empower and Strengthen faculty advisement of students

• "For every meeting with a [faculty] advisor the odds of retention increase by 13%"

• Faculty advisor advisee lists will reflect accurate majors. This list should be updated each and every semester.

• Identify a Lead Faculty Advisor in each academic division. This Lead Faculty Advisor will be provided release time during the fall and spring semesters and be provided a stipend at other heavy enrollment times, with designated duties and hours on campus. They will be available to advise division majors not yet assigned to a faculty advisor and/or during times full-time faculty are not on contract.
Recommendations
Initiative 4 Continued:

• Lead faculty advisors should be trained in Conceptual, Informational, and Relational components of Advising.

• Diversified Studies should be the default program for undecided majors. Faculty advisors in any division could easily advise students with this degree plan.

• A Coordinator of Faculty Advising will be designated from the Center for Learning and Teaching. The Coordinator of Faculty Advising will stay current in faculty advising best practices by attending at least one advising conference a year and disseminating information to Lead Faculty Advisors through regular meetings (1-3 times a semester—to be determined). FERPA training will be provided by Alan Stringfellow or his designee. (Timeline: Begin Fall 14)

(Timeline: Begin Fall 14)
Initiative 5:
Part-Time Student Pathways to Successful Program Completion will be developed for each academic program.

- Design part-time student pathways to graduation based on real student enrollment history/course offerings

- Design realistic patterns of courses that are manageable for part-time students but will also keep them on track for graduation.

(Timeline: Begin Fall 2014)
