

### *End-of Program Student Learning Outcomes*

Graduates of this program will be skilled practitioners who:

1. Collaborate with the client, family, significant others, and members of the healthcare team to utilize the nursing process in the provision of holistic, individualized, and culturally sensitive care. (Patient-Centered Care)
2. Effectively communicate with the nursing and interdisciplinary team in the provision of client-centered care. (Teamwork and Collaboration)
3. Promote safe, quality, nursing care within healthcare teams that ensures a caring environment and supports multidimensional needs of clients and families. (Safety)
4. Role model professional nursing role expectations, including accountability, ethics, legal standards, and values. (Professionalism)
5. Integrate evidenced-based practice and clinical reasoning skills during the coordination and implementation of client care. (Evidenced-Based Practice)
6. Implement client care technologies, information systems, and communication devices that support safe nursing practice and development of nursing knowledge. (Informatics)
