N/A	I am 22 living with a single parent. I am a full-time student commuting 80 miles a day 5 days a week for class. Even with a 4cyl. car it costs approx. \$90 a week to even make it to class. I am left short of any hope towards having money for the things I need.	Not enough financial aid to cover living expenses, gas, supplies, books. Parents can't help much.

	I am less able to join organizations because of the fee. I am also needing to work more to survive with gas prices. which leads to less time to have the college experience.	Food

n/a	Cost to attend classes has risen.	
	Less money for family neccesities means less money for my education.	
www.bloombergtv.com	I cannot afford most of the time to go to the campus for class	Household Finances
wikapeda	I don't go on campus as much...I can't use the physical fitness center or library the way I would like to. Ability to gather with students to work on projects and ability to use library when not scheduled for class.	Food and clothing budget is effecting me because I have to take care of my children. High cost of textbooks and amount of fees. I think fees should only be applied if applicable.
none	I ride my bicycle when the weather permits, but I love it!	finnacial aid

I live near Crossroads Mall so I have to travel to get to the College. Maybe not as far but I still have to get here.

Not having the money for books and materials. Also I'm having trouble getting a job on campus but don't want to do volunteer work because I need the money for tuition and books.

classmates.com

Everything costs more. I try to stay on campus during down time. I do not come to campus on days I do not have class.

When the school changes text books every other year, it means used books are not available. Online suppliments cost extra if your book is used.

NA

MORE COSTLY TO ATTEND TUITION AND BOOKS CLASSES

Porn

I drive 25 miles each way to class twice a week and at least 1 extra day to visit the library. I also attend pre-planning clinicals at a local hospital for nursing the program and a full day of clinicals at the same hospital, so I drive a lot for my education
