Subject: Faculty Focus Groups for Online Initiatives

Dear Faculty,

Six to twelve division representatives (1-2 per division) are being requested to provide structured feedback and guidance during the creation and development of online student resources. It is preferable that one of these representatives be novice technology users with the other member being more advanced in technological skills, if possible. These representatives will be expected to meet every two to three weeks for a period of 1 ½ -2 hours spanning a period of March-June, 2010. They will receive a stipend (special contract) of \$500 divided into 4 payments. The feedback will be related to content and design of these resources with regard to engagement as well as their intent to meet pre-determined objectives and competencies. [Please let your dean know if you are interested by Wednesday, Feb. 24.](#)

Thank You,

Glenné Whisenhunt, PhD
