# Helping Students Develop a Growth Mindset SUSIE STEAR

FALL 2019

### Using a KWL chart

| K = know | W= want to know | L = learned |
|----------|-----------------|-------------|
|          |                 |             |
|          |                 |             |
|          |                 |             |
|          |                 |             |
|          |                 |             |
|          |                 |             |
|          |                 |             |
|          |                 |             |
|          |                 |             |

### Using a KWL chart

| K = know | W= want to know | L = learned |
|----------|-----------------|-------------|
|          |                 |             |
|          |                 |             |
|          |                 |             |
|          |                 |             |
|          |                 |             |
|          |                 |             |
|          |                 |             |
|          |                 |             |
|          |                 |             |

#### Growth Mindset Introduction: What it is, How it Works, and Why it Matters

### The Foundation For Learning

# Beliefs Focus

#### "We believe we can learn and grow. We will focus on the process of getting better."

### Key Ingredients to Growth

## What now? Educate Model Reflect

### Conclusions

| K = know | W= want to know | L = learned |
|----------|-----------------|-------------|
|          |                 |             |
|          |                 |             |
|          |                 |             |
|          |                 |             |
|          |                 |             |
|          |                 |             |
|          |                 |             |
|          |                 |             |
|          |                 |             |
