NOTES:

- ⇒ Articulated using OCCC's A.S. for Diversified Studies and without a Minor. A Minor is not required.
- ⇒ Students are encouraged to check 4 year degree plan for course sequences and offerings.
- ⇒ < The ECU HHFS Food Science degree requires an equivalent of MATH 1513 college Algebra and a Statistics Course. If a student upon transferring to ECU has only had an equivalent to MATH 1413 Survey of Math they will need to take both MATH 1513 College Algebra and a statistics course.
- ⇒ A student transferring with an Associate degree in Arts or Science from OCCC fulfills ECU's general education requirement by transferring his or her credit to East Central University. Transferring credit for general education does not eliminate or otherwise affect any of the following ECU requirements: (1) prerequisites; (2) specific requirements in majors, minors, or related work in these areas; or (3) the requirements for teacher certification. General Education equivalencies can be found by referring to either the Oklahoma State Regents Transfer Matrix or the ECU Transfer Matrix. Both matrices can be found at www.ecok.edu by clicking on *Admissions* and scrolling down to *Course Transfer Matrix*.
- ⇒ A student must earn at least 40 semester hours in upper-division courses (numbered 3000 or higher). A course taught at OCCC may equate in content to an ECU 3000-4000 level course, but it will not be counted as part of the 40 hours of upper level courses.
