OCCC has made progress to provide services to assist students in achieving their success.

Student Affairs has significantly changed so that it may better serve students. Students are now assigned a student success advisor who will work with them throughout their College experience. The goal of this new process is to improve communication with students thereby increasing retention and completion.

The college evaluated its current space capacity and re-purposed space to help with the Health Professions expansion. The repurpose of staff helped all seven of the programs within the division.

With the upcoming HLC visit planned for the Fall of 2021, the College faculty and staff have worked to develop our HLC Assurance Argument. This document is designed to evaluate all aspects of the College.

This year's annual plan continues to support the College's strategic plan, Renewal, Change & Innovation 2019-2023. As the College strives to implement changes, students, employees, and the community will benefit. We are gratified in knowing that these accomplishments will have a positive impact on students' lives.

Renewal, Change & Innovation, is the College's five-year strategic plan. Adopted by the OCCC Board of Regents in 2018, the OCCC Strategic plan includes three "Big Goals" and nine initiatives that focus on increasing the number of students who receive a certificate or a degree and closing retention and graduation gaps between certain at-risk groups of students and the entire student population.

Our Big Goals

1. Triple annual giving and grants to support student scholarships, community events, the endowment, and other College purposes.
2. Close the academic achievement gap with low-income, first-generation, and racial and ethnic groups.
3. Receive designation as a Hispanic-serving institution from the U.S. Department of Education.

Renewal, Change & Innovation Initiatives

1. **Complete College OCCC:** The number of degrees/certificates will be increased through offering new programs and expanding online, hybrid courses, and other initiatives.
2. **Health Professions Space/Expansion:** The Board of Regents received and approved a recommendation to repurpose existing space to support the need in the Health Professions Division. This additional space is needed to support increased labs and program growth.
3. **Proactive Student Success Interventions:** Early intervention, streamlining curriculum, and strengthening educational partnerships will increase the number of successful students.
4. **Increasing Enrollment:** Increasing enrollment from the international, nontraditional, and concurrent populations is crucial for the College to meet the educational needs of the community, and will contribute to the financial health of the College.
5. **Safety:** The Campus Police Headquarters, Crisis Response Center and Call Center has streamline current services and enhance the safety of students, faculty, staff, and visitors.
6. **New and Increased Funding and Revenue:** State funding for higher education has declined; therefore, other funding alternatives to support the College's mission will be developed.
7. **Employee Retention:** With increasing budget constraints, the retention of high-quality employees is critical to maintaining a high performing institution.
8. **Online Learning:** As the College continues to focus on enrollment, online learning plays a key role in providing students with the opportunity to take classes anytime, anywhere. The college is working to create an Online Division in FY22 that will serve this population of students.
