## Introduction

Oklahoma's economy continued to heal throughout FY 2011, though employment has still not recovered to the high rates prevailing in the state before the recession of 2008. Because of this soft labor market, the college experienced another record-setting increase in enrollment.

The college made headway on several major initiatives during the year. The new Family and Community Education Center (FACE) opened to accommodate the college's Adult Basic Education (ABE), General Education Development (GED) and English as a Second Language (ESL) programs. With combined enrollments of nearly 3,800, these three offerings now constitute the largest adult education program in the state.

The FACE Center also houses the college's Student Scheduled Childcare program. The program has experienced rapid growth in the last two years, increasing 370% from 10 children in spring 2009 to 47 children in spring 2011. Eventually, the new facility will give the program the capacity to care for 140 children.

There was progress on the college's Achieving the Dream initiatives designed to improve student outcomes. In FY 2011, we estimate more than 9,900 students will receive financial aid – an increase of more than 50% since FY 2005. This is important because students who receive financial aid are much more likely to persist in the pursuit of their educations than those who do not. Additionally, the new College Prep Math curriculum, designed to improve the success of students in remedial math courses, also had a major impact with improved course success rates 9 percentage points higher than the historical average.

Looking forward to 2012, the college will host a team of evaluators from the Higher Learning Commission to review the college's reaccreditation proposal or self-study. The new Massey Center to house administrative personnel should be completed on campus and major progress will be made on construction of new 1000+ seat performing arts theater.

The proposed annual plan for FY 2012 differs only slightly from the FY 2011 plan. New mission capacity indicators to implement a tobacco - free campus and a campus police force have been added. Most of the other indicators were developed in response to the college's strategic plan, *The Way Forward and Why it Matters*, and have either been completed or are in a mature phase. It is anticipated that development of a new strategic plan or significant update of *The Way Forward*, will commence next year.

Financial resources will continue to be constrained for the upcoming year. The college is prepared to handle a modest shortfall. Over the last ten years, Oklahoma's community colleges have increased credit hour enrollment nearly 50% while at the same time state appropriations per credit hour have decreased by 8%. Over the next decade, continued progress in giving more Oklahomans access to an affordable, high quality education will be dependent on reversing this trend.

# The Way Forward and Why It Matters

The Way Forward and Why It Matters is the College's ten-year strategic plan. Adopted by the OCCC Board of Regents in 2007, the ten Way Forward initiatives focus on expanding the College's presence in our traditional, virtual, and international communities and moving the College beyond its traditional access mission to achieving significantly higher rates of student success. They include:

- Achieving the Dream Initiative
- Technology and Personalized Service Initiative
- OCCC Online and Off-Campus Initiative
- The OCCC Institute for Global Excellence Initiative
- Developing Our Next Generation of Leaders Initiative
- New Learning Spaces Initiative
- Capitol Hill Center Initiative
- Childcare for Students Initiative
- Center for the Arts–Phase II Theater
- Campus Facilities

Work on several of these initiatives has already begun and is reflected in the FY 2012 Annual Plan. As the projects develop, milestones for their achievement will be incorporated in subsequent annual plans. Annual reports will be provided on the progress related to the ten initiatives.
