OCCC 2011 - 5 Year Graduate Survey Results Surveyed in FY2017

Introduction

OCCC surveys graduates five years after they have graduated. The purpose of the survey is to determine if graduates continued their education, completed their education and/or if they are currently employed in a position related to the education they received at OCCC. The summary of data is reported below with the details provided in Appendix A. Seven programs with twenty or more completed graduate surveys are reported in Appendix B. Appendix C provides all of the jobs identified by graduates as being related or somewhat related to their education. These jobs are divided by academic program. The survey instrument is in Appendix D. All comments were compiled and sent to the respective deans of each division.

Methodology

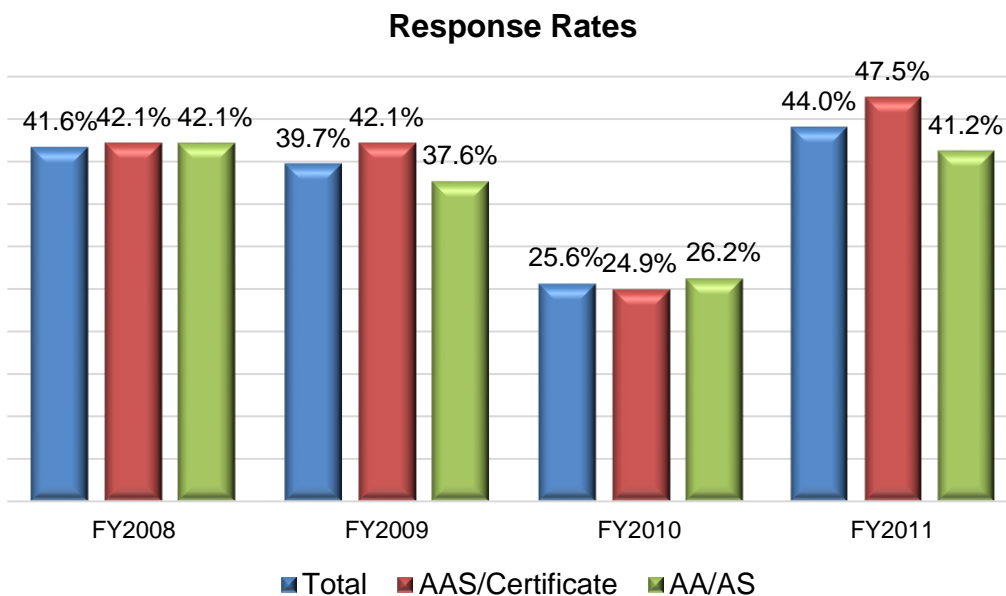

A list of FY2011 graduates was pulled from the college's database to create the initial graduate list. A mailing was sent followed by telephone calling. Once graduates were telephoned a minimum of seven times, the remaining list was sent to a private company to contact the graduates. After receiving the response back from the company we initiated more phone calls to graduates who had new telephone numbers.

Limitations

One of the major limitations of the data was the lack of adequate graduate addresses and telephone numbers which made it difficult to contact all of the graduates. In addition, after five years, some of the graduates did not recognize that they graduated from OCCC particularly if they had received a degree due to the reverse transfer of their credits from their university or if they had obtained a certificate from OCCC.

Response Rates

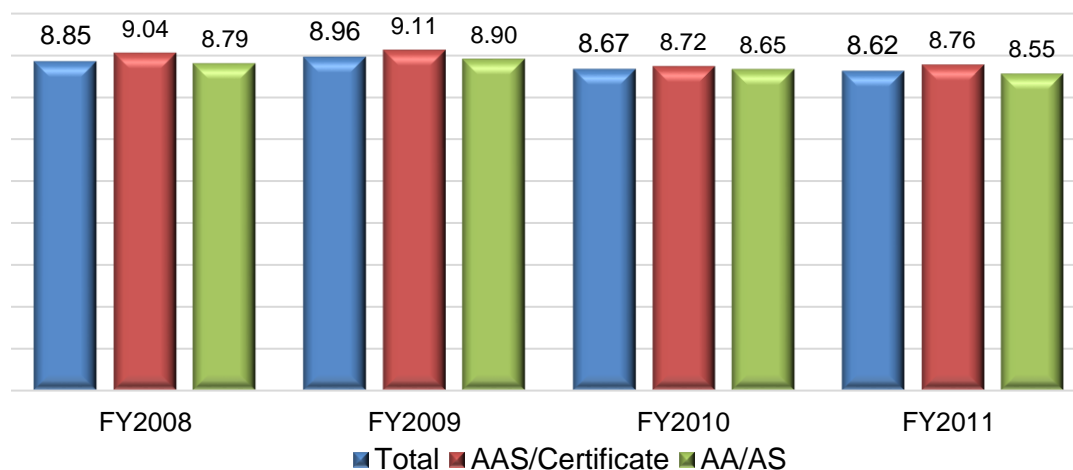

Initially, there were 1,340 graduate surveys mailed. After several mailings and telephone calls there were 44% of the surveys or 589 completed which was an increase of 18.4 percentage points from last year.

Results

Sixty-four percent of the graduates continued their education and of these graduates, 91.0% graduated or intended to graduate shortly. Graduates rated their satisfaction with OCCC preparing them for their continued education as 8.62 on a 10-point scale.

OCCC Prepared the Graduate for Further Education

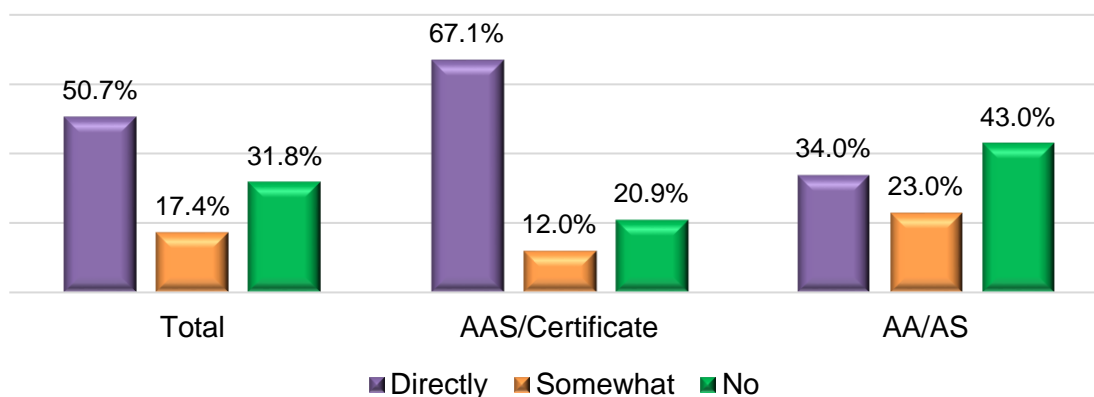

Scale = 1-10 1-Not Satisfied to 10-Very Satisfied

The majority of the respondents were employed with 85.9% full-time and 9.2% part-time. There were some differences in the AAS/Certificate graduates compared to the AA/AS graduates with 2.7% unemployment for the AAS/Certificated graduates and 6.9% unemployment for the AA/AS graduates.

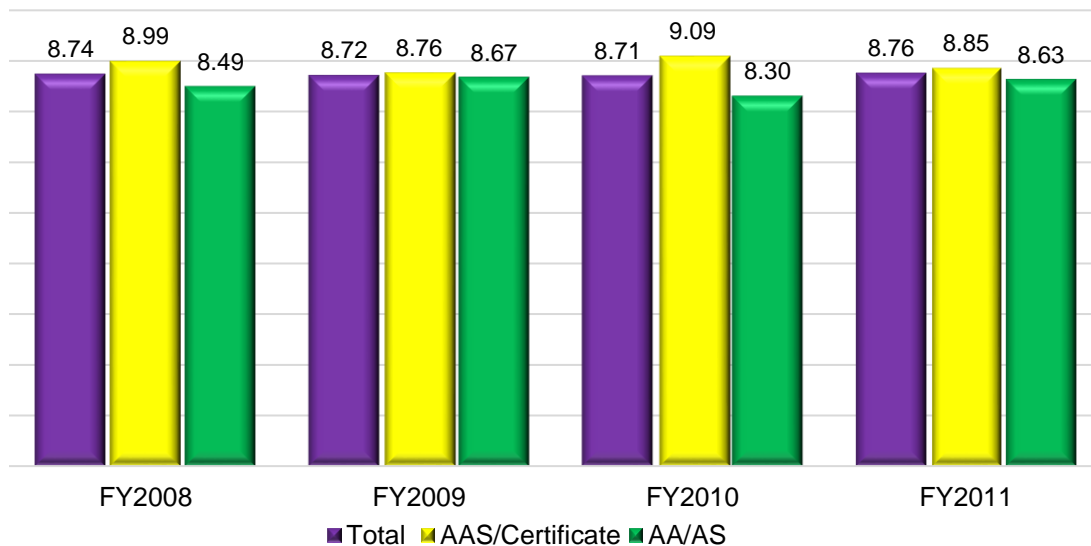

As anticipated, the number of graduates who remained in their OCCC degree related field were primarily those who graduated with an AAS degree or certificate. A significant portion of OCCC graduates who transfer have diversified study degrees or change their major once they attend a university setting.

Employment is Related to OCCC Education

The results were very positive regarding the satisfaction ratings of how well the college prepared the graduate for their employment with a rating of 8.76 on a 10-point scale.

OCCC Prepared the Graduate for Employment

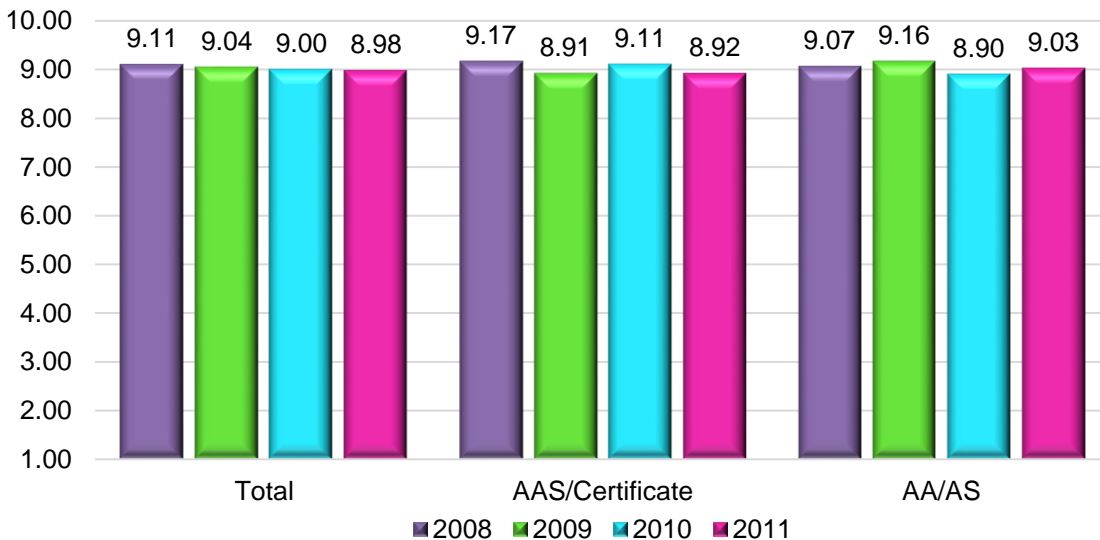

Scale = 1-10 1-Not Satisfied to 10-Very Satisfied

OCCC's openness to diversity was rated 9.20 on a 10-point scale. This was almost exactly the same in the previous year.

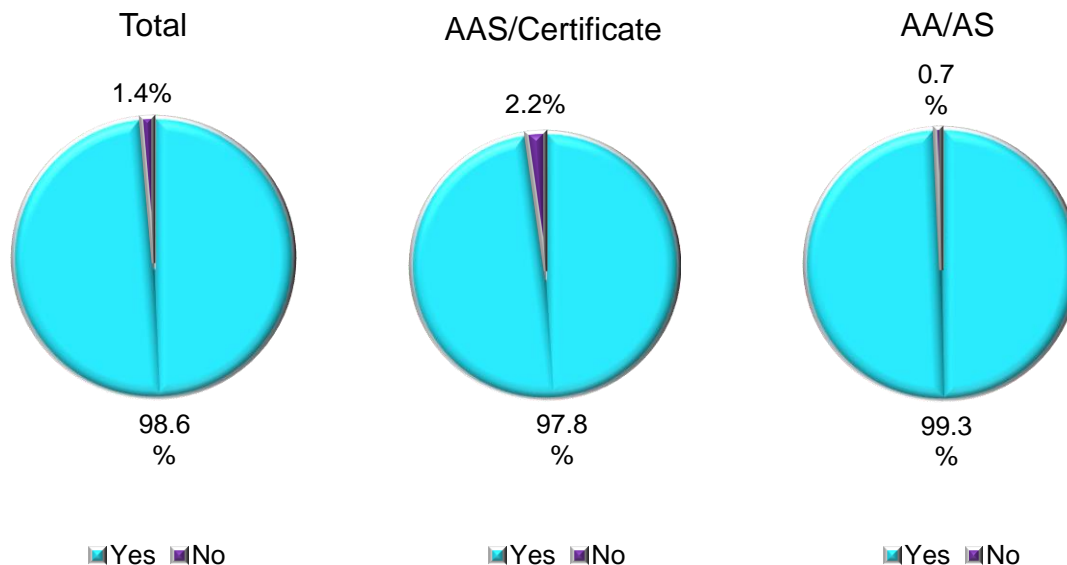

Students were very positive about their overall level of satisfaction with their OCCC educational experience. With a scale of 1 to 10, with 1 being not satisfied and 10 being very satisfied, the overall level of satisfaction was 8.98. The AAS/Certificate graduates and AA/AS graduates had similar levels of satisfaction.

Overall Satisfaction with OCCC's Education

Scale = 1-10 1-Not Satisfied to 10-Very Satisfied

OCCC graduates continue to support the college by recommending the college to their friends. As can be seen by the charts below there is a slight difference between the AAS/Certificate graduates and the AA/AS graduates response.

The vast majority of comments were positive. Most comments addressed the graduates' level of satisfaction with the faculty and staff. Below is a small sample of the comments.

- Friendly and helpful staff.
- I always loved the people in OCCC. One of the friendliest place to attend classes.
- I could say only great things about OCCC. I really do not know where to start. Great College!
- My professors were phenomenal in helping me achieve my goals at OCCC. They were amazing.
- OCCC is a wonderful way to start a Bachelor's degree. I was very happy with the flexibility of my schedule. I recommend OCCC to every college-age person for an inexpensive way to college.
- The Child Development program prepared me for teaching kindergarten students before I decided to further my education at OU.
- The nursing program was difficult but excellent. I have a great nursing job and I am pursuing a second Master's degree in Healthcare Management.
- The OCCC Film degree program provides an essential outlet in the Oklahoma City Metro for those seeking a career path that pertains to the ever-expanding world of film, media, and video. After graduating, I continued my university at the university of Oklahoma with a degree in Film & Media Studies, but the practical, hands-on education I received through OCCC's film program gave me the skills and tools I needed to compete in a small job market.
- The professors are really nice and helpful.
- They were very instrumental to my success in my degree.
- Took Introduction to Microbiology at OCCC, and fell in love with it. OCCC is smaller and not so overwhelming. Great start for success.

Summary

This year was the highest response rate with 44.0% compared to 25.6% last year. A preponderance of those graduates who sought out an education have graduated or will be graduating shortly (91%). The responses for the Associate of Science and Associate of Arts are significantly different than the Associate of Applied Science and Certificates. These differences were remarkably evident within the percent of graduates who were unemployed with the AAS/Certificate graduates with a 2.7% and the AA/AS graduates with a 6.9%.

The average survey ratings were positive. Ninety-nine percent of the survey respondents indicated that they would recommend OCCC to a friend. Finally, the comments were overwhelmingly positive with graduates recognizing the impact the college had on their success.
