Meeting began with a welcome and the minutes from September 24, 2020 were reviewed. Michael Boyle made a motion to accept and Ann Raia seconded. Motion passed unanimously.

Glenné' Whisenhunt gave a presentation on how assessment is done in the Center for Learning and Teaching. The goal is to build support and modify and update as needed. They look at the pages that are visited and how often. Updated with step by step instructions but found that wasn't working so they added a video to the website. Due to the constant monitoring, data collecting, and modifications, tech support's phone calls have dropped dramatically. Glenné' advised to assess and change frequently.

Dean Reusser assigned Zoom groups for the 3 programs and each group met for 15 minutes. Reviewed Sections 1 and 2 were discussed.
