

Mathematical Methods			
Outcome:			
The student will apply mathematical skills and knowledge to solve problems.			
Rubric:			
Features	3 - Mastering	2 - Developing	1 - Emerging
Mathematical Concepts/Properties	Fully shows an understanding of mathematical concepts and/or properties that apply to the problem	Partially shows an understanding of mathematical concepts and/or properties that apply to the problem	Inadequately shows an understanding of mathematical concepts/properties that apply to the problem
Calculation Steps	Fully illustrates calculation steps with no errors or omissions	Partially illustrates calculation steps and/or with few errors	Inadequately illustrates the calculation steps and/or with serious errors
Terminology and Notation	Fully applies appropriate mathematical terminology and notation	Partially applies appropriate mathematical terminology and/or notation	Inadequately applies appropriate mathematical terminology and/or notation
Solutions	Derives fully accurate mathematical solutions	Derives partially accurate mathematical solutions	Derives inaccurate mathematical solutions
