

## How to Pair with McGraw-Hill Connect Automatically

1. Find the **Connect Access Link** in your course and click on it.

2. Click on the first option that says "Select Connect":

The screenshot shows the McGraw Hill website's platform selection interface. At the top left is the McGraw Hill logo. Below it, the heading "Welcome to McGraw Hill" is followed by the instruction "Select the McGraw Hill platform that you would like paired with your course from the list". Under the "Platforms" section, two options are presented. The first is "connect", with a description: "Connect<sup>®</sup> is a complete course platform including ebook, assessments, activities, polling and more. It is a highly reliable, easy-to-use homework and learning management solution that applies learning science and award-winning adaptive tools to improve student results and course delivery efficiency." Below this description is a button labeled "Select Connect", which is highlighted with a blue arrow. The second option is "GO", with a description: "McGraw Hill GO is an easy-to-use and quick to set up eBook+ that lives within your LMS. It is a lightweight solution to making your course interactive. GO makes it easier to keep up with progress and direct attention where it matters." Below this description is a button labeled "Select McGraw Hill GO". At the bottom of the page, there is a copyright notice "© 2024 McGraw Hill. All Rights Reserved." and several links: "Terms of use", "Privacy Center", "Accessibility", "Report Piracy", and "Site Map".

3. Wait for the automatic account and course setup process to finish.

The screenshot displays the McGraw Hill Connect "Automatic Account and Course Setup" message. It features the McGraw Hill logo and the word "connect" in a large font. The main heading is "Automatic Account and Course Setup". Below this, the text reads: "Your course has been setup for automatic account and course setup. We will keep you updated on the progress." A progress list follows: "• Step 1: Setting up your account" with a green checkmark icon, and "• Step 2: Setting up your course" with a circular refresh icon.

4. Once you get the message “Your assignment relinking has completed,” you can click **Back to Moodle**, and you are finished setting up Connect.

## You have paired your Moodle course with Connect!

 <p><b>ENGL 1113 8 Week Online Example Course</b></p> <p><a href="#">&lt; Back to Moodle</a></p>	⌘	 <p><b>Primary ENGL 1113 8 Week Online</b></p> <p><a href="#">Go to Section Home &gt;</a></p>
---	---	--

**Your assignment relinking has completed.**

### Oops

Did you just pair this Moodle section to the wrong Connect section?
