

Moodle Gradebook Setup

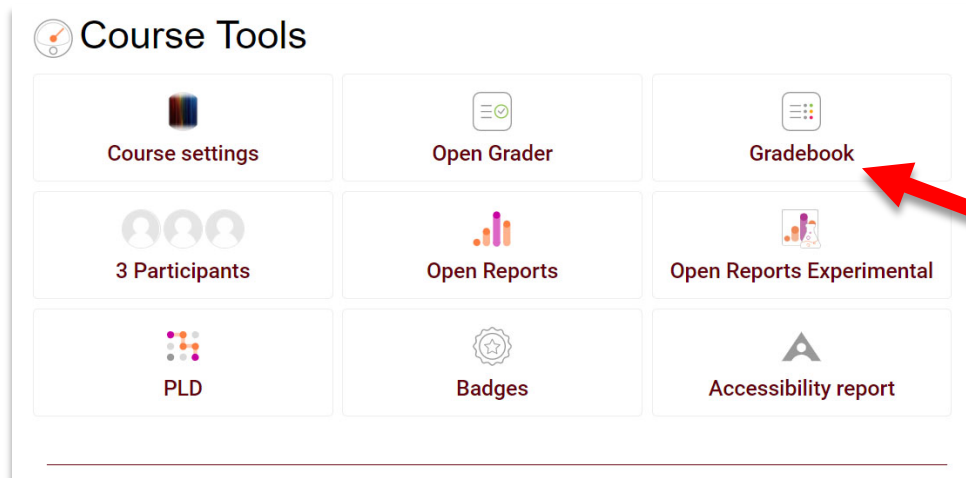

There are several options regarding how your Gradebook calculates grades. It is important to have the calculation method match what your course syllabus indicates as the manner in which grades are calculated.

The CLT recommends using the **Natural aggregation** for the majority of gradebook types. This is the default setting for newly created courses. This aggregation method can accommodate using points and percentages or category weights to calculate a student's grade.

To gradebook setup, first access the Moodle gradebook. This can be done by entering your course and selecting **Course tools** link in the **CONTENTS** area.

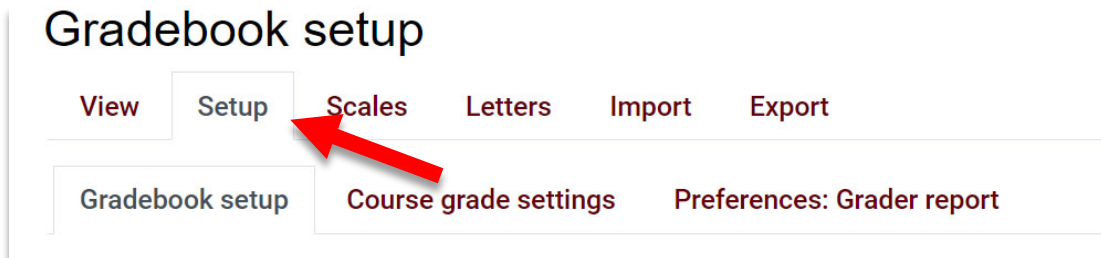

In the Course tools area, select **Gradebook**.

This will load the Moodle Gradebook.

Adding Categories

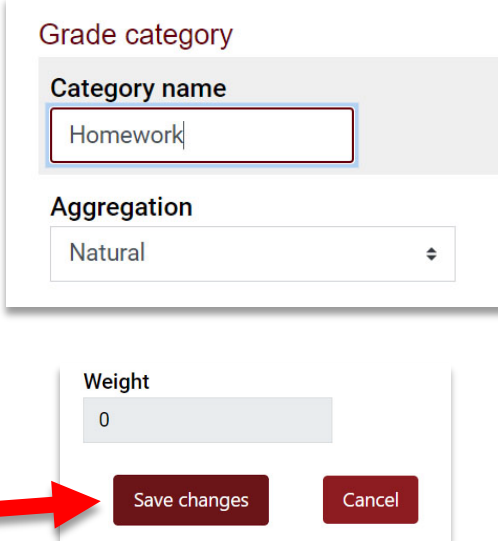

Categories are not necessary unless you are using a weighted gradebook, but can be used to organizing grades in other gradebook types. To add a category, first access your gradebook. Next, select the **Setup** tab near the top of the page.

This will bring you to the **Gradebook setup** page. If you are creating a new gradebook, this page will be empty. At the bottom of the page, select **Add category**.

On the New Category page, add a **Category name**. For now, there is no need to adjust any other settings.

Grade category

Category name
Homework

Aggregation
Natural

Weight
0

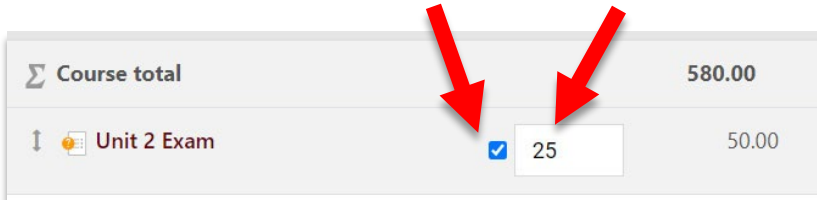

Save changes Cancel

At the bottom of the page, select **Save changes**. You will be returned to the **Gradebook Setup** page, where you can add any additional categories you need by repeating the above steps.

Editing Category Weights

If you are using a Weighted gradebook, you will need to adjust your category weights after you have created them. If your gradebook is calculated based on total points, you do not have to add category weights.

For each category, check the box in the **Weights** column and **enter the desired weight** for that category in the text field.

Σ Course total		580.00
Unit 2 Exam	<input checked="" type="checkbox"/>	25

The total of the weights entered for each category should equal 100.

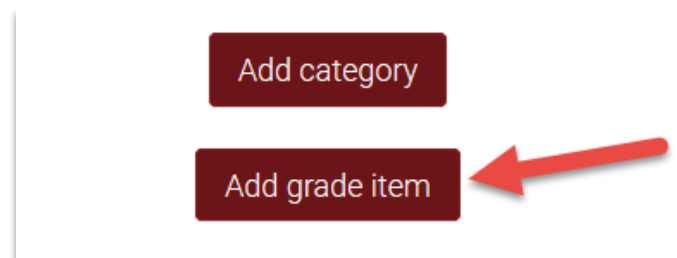

Σ Course total		300.00
📁 Forums	<input checked="" type="checkbox"/> 10	
Σ Forums total		10.00
🗨️ Vocabulary Discussion (advanced forum)	<input type="checkbox"/> 100.0	10.00
📁 Writing Assignments	<input checked="" type="checkbox"/> 40	
Σ Writing Assignments total		40.00
📁 Unit 2 Dropbox (Assignment)	<input type="checkbox"/> 100.0	40.00
📁 Tests	<input checked="" type="checkbox"/> 50	
Σ Tests total		150.00
🎯 Visuals Exam (quiz)	<input type="checkbox"/> 53.333	80.00

Select **Save Changes** at the bottom of the list of grade items to save the category weights.

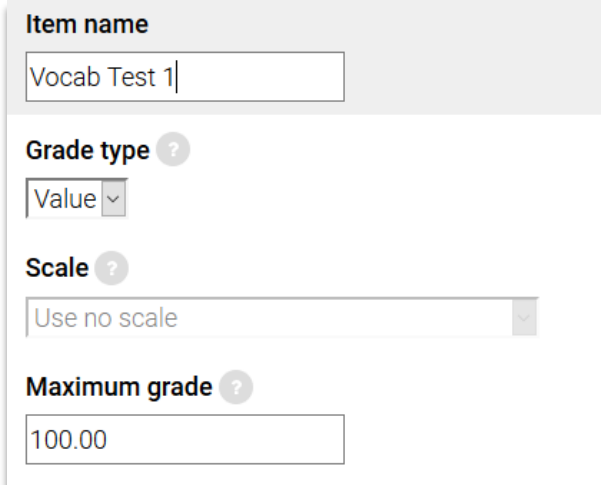

Adding Manual Grade Items

In Moodle, creating certain activities, such as quizzes or assignments, automatically generates a grade item in the gradebook. However, “offline” grades (such as presentations or tests taken with pen and paper) call for manually added grade items.

To add a manual grade item, select **Add grade item** at the bottom of the page.

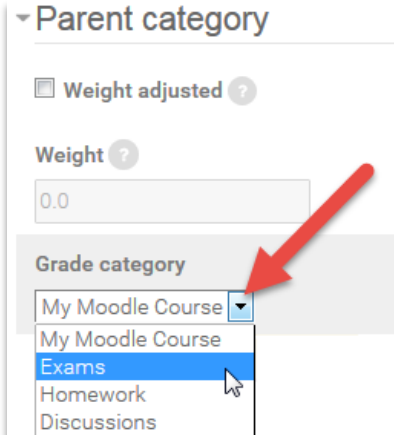

Enter a name for the grade in the **Item name** field, such as Vocabulary Test 1. Next, enter the total points possible for the item in the **Maximum grade** field. The default maximum grade is 100.

The screenshot shows a form with the following fields:

- Item name:** A text input field containing "Vocab Test 1".
- Grade type:** A dropdown menu with "Value" selected.
- Scale:** A dropdown menu with "Use no scale" selected.
- Maximum grade:** A text input field containing "100.00".

If you are using categories in your gradebook, you will need to select the category in which the grade item should be placed. This is done by selecting the category name from the **Grade category** drop-down menu beneath the Parent Category heading.

The screenshot shows a dropdown menu titled "Grade category" with the following options:

- My Moodle Course
- My Moodle Course
- Exams
- Homework
- Discussions

A red arrow points to the "Exams" option, which is highlighted in blue.

When you are finished, select **Save changes** at the bottom of the page.

You will be returned to the **Gradebook setup** page, where you will see your newly created grade item.

Name	Weights	Max grade	Actions
 Moodle Instructor Training Course (Dev RN2)		-	Edit 
 Course total		50.00	Edit 
  Vocabulary Test	<input type="text" value="100.0"/>	50.00	Edit 

Repeat this process until all of your grade items are added to the gradebook.

Entering Student Grades in the Gradebook

The **Single view** page in the gradebook allows you to easily enter and edit all grades for one activity or for one student at the same time. This page can be accessed in the gradebook from the **View** tab by selecting the **Single view** link.

To enter grades for a specific grade item, select that item in the **Grade Items** menu. You can also enter grades for a specific student by selecting them in the **Users** menu.

View Setup Scales Letters Import Export

Grader report Grade history Joule Gradebook Single view User report

Grade items Choose... Users Choose...

Choose...
Unit 1 Exam
Unit 2 Exam
Unit 3 Exam
Unit 4 Exam

Selecting a specific grade item will load a page which lists all students in the course and provides a field in which grades can be entered for the selected item for each student.

First name (Alternate name) Surname	Range	Grade	Feedback	Override All / None	Exclude All / None
student demo	0.00 - 20.00	<input type="text"/>	<input type="text"/>		<input type="checkbox"/>
CLT Student001	0.00 - 20.00	<input type="text"/>	<input type="text"/>		<input type="checkbox"/>

You can bulk insert grades using the **Perform bulk insert** options. This is especially useful for adding zeros to empty grades.

Perform bulk insert

For Insert value

After entering grades for the item, use the **Save** button at the bottom of the page to save your changes.

Repeat this process each time you wish to enter student grades in your course.

If you have questions about whether your gradebook setup matches your syllabus, or if you need assistance, please contact the Center for Learning and Teaching at dlt@occc.edu or 405-682-7838.
