

Setting Up Forums

Open Forums have phased out of Moodle, so instructors are being asked to transition **Open Forum** activities to **Forums**.

Grading: Forums do not have the option of being graded in Open Grader. Open grader is still available; however, the grading options for Forums do not include Open Grader. The grading options for Forums are Whole Forum Grading or Ratings.

Whole forum grading is a feature that allows instructors to assess student forum postings from a grading interface that collects each student's postings on one page.

To add a Forum, start by turning on Edit mode.

Select Add an activity or resource to your course and choose Forum.

Subscription and tracking

The Subscription mode option controls whether students and instructors can choose to receive emails every time a post is made to the forum.

Post threshold for blocking

This can be set to prevent students from posting more than a set number of posts within a set amount of time.
